

Bicycle and E-bike Rental Agreement

This Bicycle and E-bike Rental Agreement (the **Agreement**) is between the Lessor and the Renter identified in the Parties section. They agree to the following terms.

1. Bicycle and included equipment

The Lessor rents to the Renter the following bicycle or e-bike: _____ (the **Bicycle**). Any description, type, brand, model, frame number, accessories, condition notes, photographs, or attached catalog items recorded in this Agreement identify the Bicycle and what is supplied with it. Accessories may include a lock, helmet, lights, battery, or charger, but only items actually recorded or handed over are included.

The Parties should inspect the Bicycle and its accessories at handover and record visible damage, missing parts, and other relevant conditions. Condition photographs, if taken, form part of the photo appendix.

2. Rental period and return arrangements

The rental period is _____. The Renter will return the Bicycle and supplied accessories by the end of that period unless the Parties agree to an extension.

Any pickup and return locations recorded in the Details section apply. If a location or exact handover time is not recorded, the Parties will agree on it before handover. The Renter will tell the Lessor promptly if a delay is expected.

3. Rental fee and deposit

The agreed rental fee for the rental period is _____. Unless the Parties agree otherwise, payment is due at handover. Any security deposit recorded in the Details section is payable at handover and serves as security for amounts lawfully owed under this Agreement; it is not a non-refundable fee.

After return, the Lessor will refund the deposit balance within the time required by applicable law, explaining any deductions. Deductions must be supported by reasonable evidence and must not include ordinary wear and tear. No additional charge is payable unless agreed or permitted by applicable law.

4. Condition and safety at handover

The Lessor will provide the Bicycle in a condition suitable for the agreed use and disclose known faults affecting its safe operation. The Lessor will provide or explain any important operating instructions, including how to use the brakes, gears, lights, locks, and, for an e-bike, the electric assistance and charging system.

The Renter will check the Bicycle before riding and will not use it if there is an apparent safety problem. The Renter should promptly inform the Lessor of any defect or malfunction discovered during the rental.

5. Riding and permitted use

The Renter will use the Bicycle with reasonable care, for its intended purpose, and in accordance with applicable traffic and safety laws. The Renter is responsible for checking and following local requirements concerning riding areas, lights, helmets, passenger transport, and any rules specific to an e-bike.

The Bicycle must not be used for racing, stunts, or activities for which it is not designed, or operated while the rider is impaired. The Renter must not sublet, sell, pledge, or materially modify the Bicycle, or allow an unqualified person to use it, without the Lessor's consent. Passengers and additional loads are permitted only where the Bicycle is designed and equipped for them.

6. E-bike battery and charging

If the Bicycle has electric assistance, the Renter will follow the manufacturer's instructions for charging, storage, and use of the battery. Only a charger supplied or approved for that battery may be used. The Renter must not open, alter, or attempt to repair the battery, charger, motor, or electrical system.

The Renter will not charge a battery that appears damaged, is overheating, or behaves abnormally, and will stop using the electric system and notify the Lessor if a safety concern arises. Charging must be supervised and carried out in a safe place according to the manufacturer's instructions.

7. Security, loss, and damage

When not in use, the Renter will take reasonable steps to secure the Bicycle against theft, including using any supplied lock appropriately. The Renter will report theft or loss to the Lessor promptly and to the police where required or reasonably appropriate.

The Renter is responsible for loss or damage to the extent caused by misuse, failure to take reasonable care, or other conduct for which the Renter is legally responsible. The Renter is not responsible under this clause for ordinary wear and tear or pre-existing defects. Any compensation must reflect proven, reasonable loss or repair costs, subject to applicable law.

8. Accidents and mechanical problems

If the Bicycle is involved in an accident or develops a problem affecting safe use, the Renter will stop riding when necessary, take reasonable steps to prevent further harm, and notify the Lessor as soon as practicable. Emergency services or police should be contacted when required by the circumstances or local law.

The Renter must not arrange substantial repairs or replace parts without consulting the Lessor, except where urgent action is reasonably necessary to prevent further harm. If a fault not caused by the Renter makes the Bicycle unusable, the Parties will cooperate on an appropriate remedy, without limiting their rights under applicable law.

9. Return and inspection

At the end of the rental, the Renter will return the Bicycle, keys, battery, charger, lock, and other accessories that were supplied, in substantially the condition received, allowing for ordinary wear and tear. The Parties should inspect the Bicycle together where practical and record any missing items or new damage.

The Lessor will explain any claim for damage or missing equipment and provide available supporting evidence. No Party may recover the same loss twice through a deposit deduction and a separate charge.

10. Changes, early ending, and general terms

The Parties may extend or change the rental by mutual agreement. Either Party may end it for a serious breach after giving any notice or opportunity to remedy required by applicable law. Any resulting refund or additional amount due will be assessed according to the circumstances and applicable law.

The completed Details section, Parties section, and any Items or photo appendices form part of this Agreement. Nothing in it excludes a right, remedy, or liability that cannot lawfully be excluded or limited. If one provision is unenforceable, the remaining provisions continue to apply as far as the law permits. Any later change should be recorded and agreed to by both Parties in a form permitted by applicable law.
