

Boat and Water Sports Equipment Rental Agreement

This Agreement is between the Lessor and the Renter identified in the Parties section.

1. Equipment

The Lessor rents the following _____: _____ (the "Equipment"). The Equipment may be a boat, kayak, paddleboard, canoe, or other water sports item. Its precise description, accessories, permitted capacity, and recorded condition may appear in the Details, Items, and photo appendices.

The Lessor must provide Equipment suitable for the agreed activity, disclose known safety limitations, and supply the required safety equipment and instructions. The Renter should inspect the Equipment and report missing or defective parts before use.

2. Rental period and fee

The Equipment is rented for _____ at a rental fee of _____. Handover, return, deposits, and other specific arrangements may be recorded in Details. The Renter must return the Equipment at the agreed time and place, or promptly contact the Lessor if safety makes return impossible.

3. Competence and permitted users

The Renter must ensure that each user can safely participate in the chosen activity and complies with applicable age, licensing, supervision, and operator requirements. A powered boat must be operated only by a legally qualified person. The Equipment must not be overloaded or used beyond its rated capacity or intended purpose.

The Renter shall follow lawful navigation rules, posted restrictions, and the Lessor's reasonable safety instructions. The Renter must not use the Equipment while impaired by alcohol or drugs and must not sublet it or permit unauthorised operation.

4. Weather, conditions, and safety

Water conditions can change quickly. Before leaving, the Renter must consider the forecast, current, wind, visibility, local hazards, and personal ability. Users must wear personal flotation devices wherever required by law or reasonable safety instructions, and carry the safety equipment required for the activity.

The Renter should remain within any agreed operating area and return or seek a safe landing when conditions deteriorate. The Renter must not continue if use becomes unsafe. Neither Party is required to risk personal safety to meet a return deadline.

5. Damage, loss, and incident response

The Renter must use reasonable care, secure the Equipment when not in use, and report material damage, loss, or malfunction promptly. In an emergency, contacting rescue services and protecting people takes precedence over protecting property. The Parties should record any incident and cooperate with legally required reports.

Liability for loss or damage depends on the facts, fault, insurance, and applicable law. Normal wear and pre-existing defects are excluded from any damages claim against the Renter. The Lessor remains responsible for obligations that cannot lawfully be transferred.

6. Weather-related interruption

When the agreed use cannot proceed safely, the Parties shall discuss a practical alternative or early return. Any cancellation, refund, or price adjustment follows applicable law and any lawfully agreed terms; an unsafe trip should not be required merely to avoid a fee.

7. Return and final inspection

The Renter must return the Equipment and all supplied accessories in reasonable condition, excluding normal wear. The Parties should check for damage, missing equipment, and cleanliness at return. Any deduction from a deposit must be justified and documented.

8. Other terms

The completed Details and appendices form part of this Agreement. Mandatory safety, consumer, and other applicable laws take precedence over inconsistent terms.
