

Motorcycle and Scooter Rental Agreement

This Agreement is made between the Lessor and the Renter (Driver) named in the Parties section.

1. Motorcycle or scooter

The Lessor rents a _____ with registration number _____ (the "Vehicle"). The Vehicle, keys, documents, and listed accessories will be provided at handover. The Parties should inspect tyres, brakes, lights, visible damage, and odometer condition and record any concerns before departure.

The Lessor is responsible for supplying a legally roadworthy Vehicle with any registration, insurance, and safety equipment required by applicable law. Known defects that may affect use must be disclosed before handover.

2. Period and rental fee

The rental period is _____ and the rental fee is _____. Further agreed information about a deposit, accessories, condition, and other rental arrangements may appear in the Details and photo appendices. A change to the return date or place requires the Parties' agreement.

3. Rider eligibility and protective equipment

Every rider must hold the licence, minimum age, and permissions required for this class of Vehicle and its engine or power rating. Only people named as permitted drivers in the Parties section may ride it. The Renter must not allow riding by anyone who is unlicensed or impaired.

The rider and any passenger must use helmets and other protective equipment as required by law. The Renter is responsible for using any supplied equipment appropriately and reporting missing, defective, or unsuitable equipment before the ride. The Vehicle must not carry more passengers or luggage than it is designed or legally approved to carry.

4. Permitted use and care

The Vehicle is for lawful riding on routes appropriate to it. Racing, stunts, unlawful off-road use, subletting, and commercial carriage are prohibited unless specifically agreed and legally permitted. The Renter must secure the Vehicle against theft when unattended, use any supplied lock, and take reasonable precautions when parking.

The Renter shall check obvious safety issues and discontinue use if a defect could make riding unsafe. Repairs or modifications require prior consent except for reasonable emergency measures to prevent harm.

5. Accidents, breakdowns, and insurance

The Renter must immediately seek assistance when necessary and inform the Lessor promptly of accidents, theft, collisions, breakdowns, or suspected safety defects. Police or emergency services must be contacted where the law requires or safety demands it. The Renter should preserve relevant photographs and incident details where safe to do so.

The Lessor shall disclose the applicable insurance arrangements and any exclusions or excess before handover. Liability for losses depends on fault, actual loss, available insurance, and applicable law; ordinary wear is excluded. Nothing here reduces non-excludable rights or liability.

6. Return and inspection

The Renter must return the Vehicle on time with all keys, accessories, and documents, in substantially its handover condition apart from reasonable wear. The Parties should compare the return condition with the handover record. Charges for damage, loss, cleaning, or late return must have a valid legal and contractual basis and must not be disproportionate.

7. Ending the rental

Applicable legal rights to terminate, obtain a remedy for defective equipment, or receive a refund remain in force. Any agreed extension or substantial change should be recorded in writing.

8. Agreement record

The body, completed Details, Parties, and any item or photo appendices form the agreement. Any inconsistent provision yields to mandatory law.
